

Program Description

[MATHCOUNTS](#) is a national enrichment, coaching and competition program that promotes middle school mathematic achievement. The mission of MATHCOUNTS is to increase enthusiasm for and enhance achievement in middle school mathematics throughout the United States. MATHCOUNTS is supported by the National Society of Professional Engineers (NSPE), The National Council of Teachers of Mathematics and the National Aeronautics and Space Administration, to name a few.

With the generous support of all Mathcounts sponsors and volunteers, and leadership of the National Society of Professional Engineers at the local and state levels, MATHCOUNTS is providing today's students with the foundation for success in science, technology, engineering and mathematics careers. Winners at the local competition advance to the state MATHCOUNTS competition later this year in Albuquerque.
